

WG 3: LIBERATION FROM FOSSIL CAPITALISM

Towards an Eco-Sufficient, Just and Democratic Society

- Democracy
 - Now in the hands of the wealthy (plutocracy)
 - Movement towards genuine democracy
 - Popular movements of the marginalised majorities
- Energy transition
 - from fossil energy to solar revolution
 - photosynthesis, green growth as degeneration of vegetation for basic needs
- For winning hegemony, a simple, attractive alternative is needed: good life / bon vivir
